

# SMSJ Class room user guide

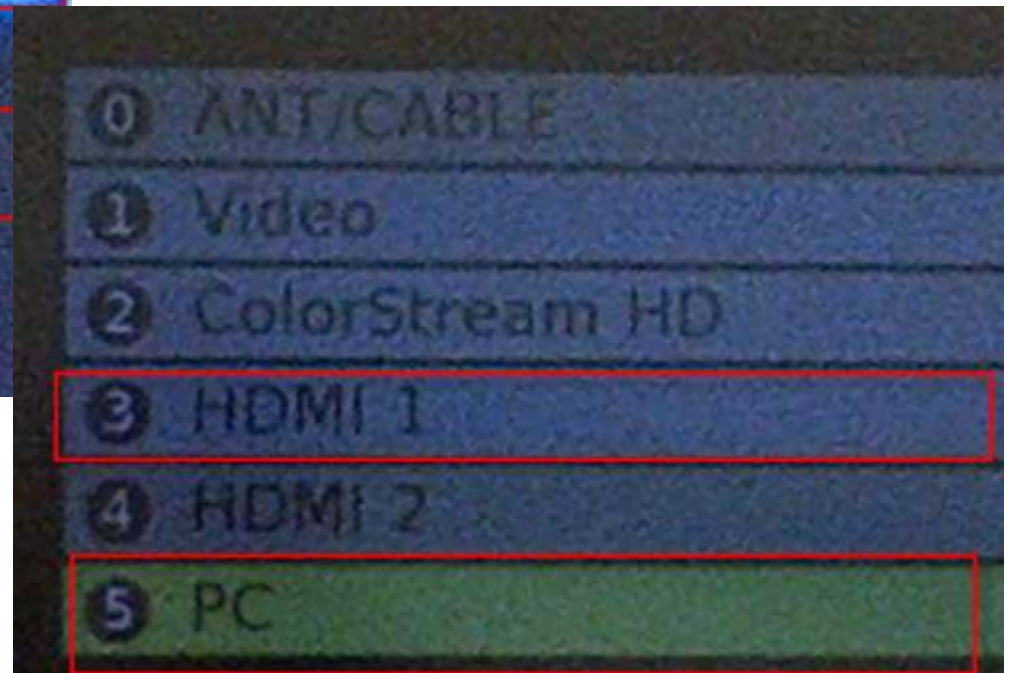

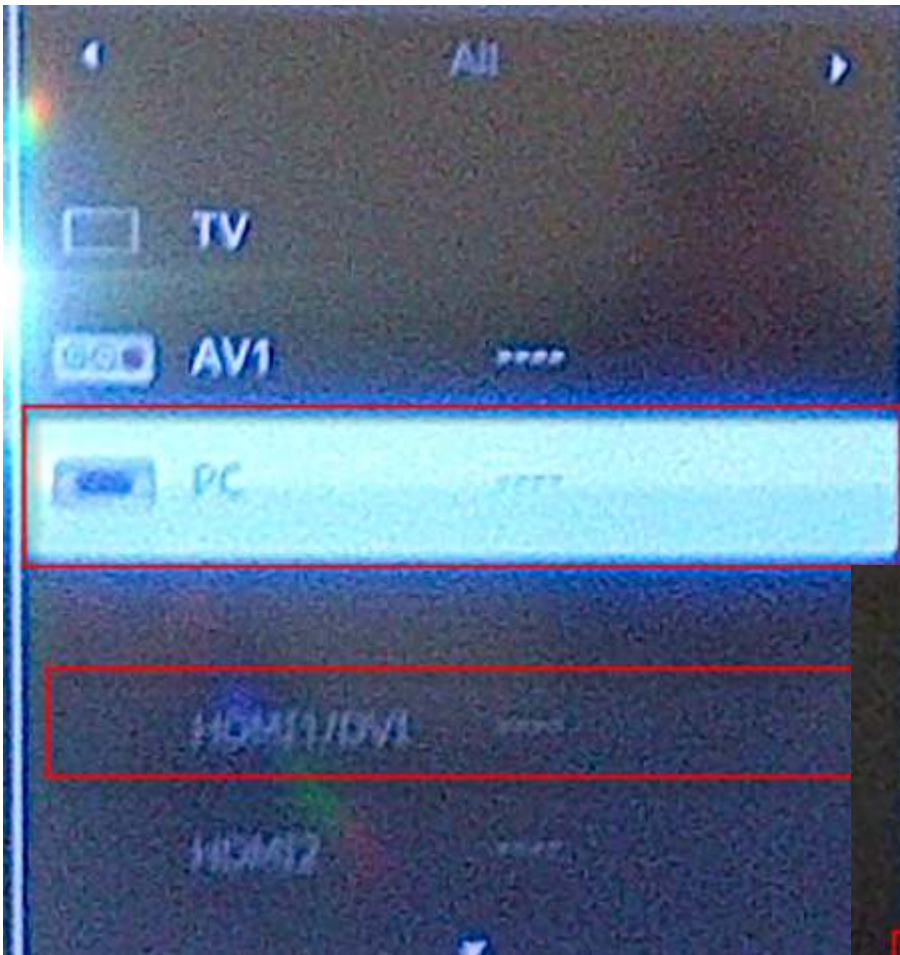

# Visual aid

- Each room is equipped with a TV
- Each TV is equipped with HDMI input (Video and audio from your PC)
- PC input plus audio cable from your PC.
- Video/audio input (2 RSA type yellow → Video, white and red → audio) for DVD /VHS usage.

# What You have to do

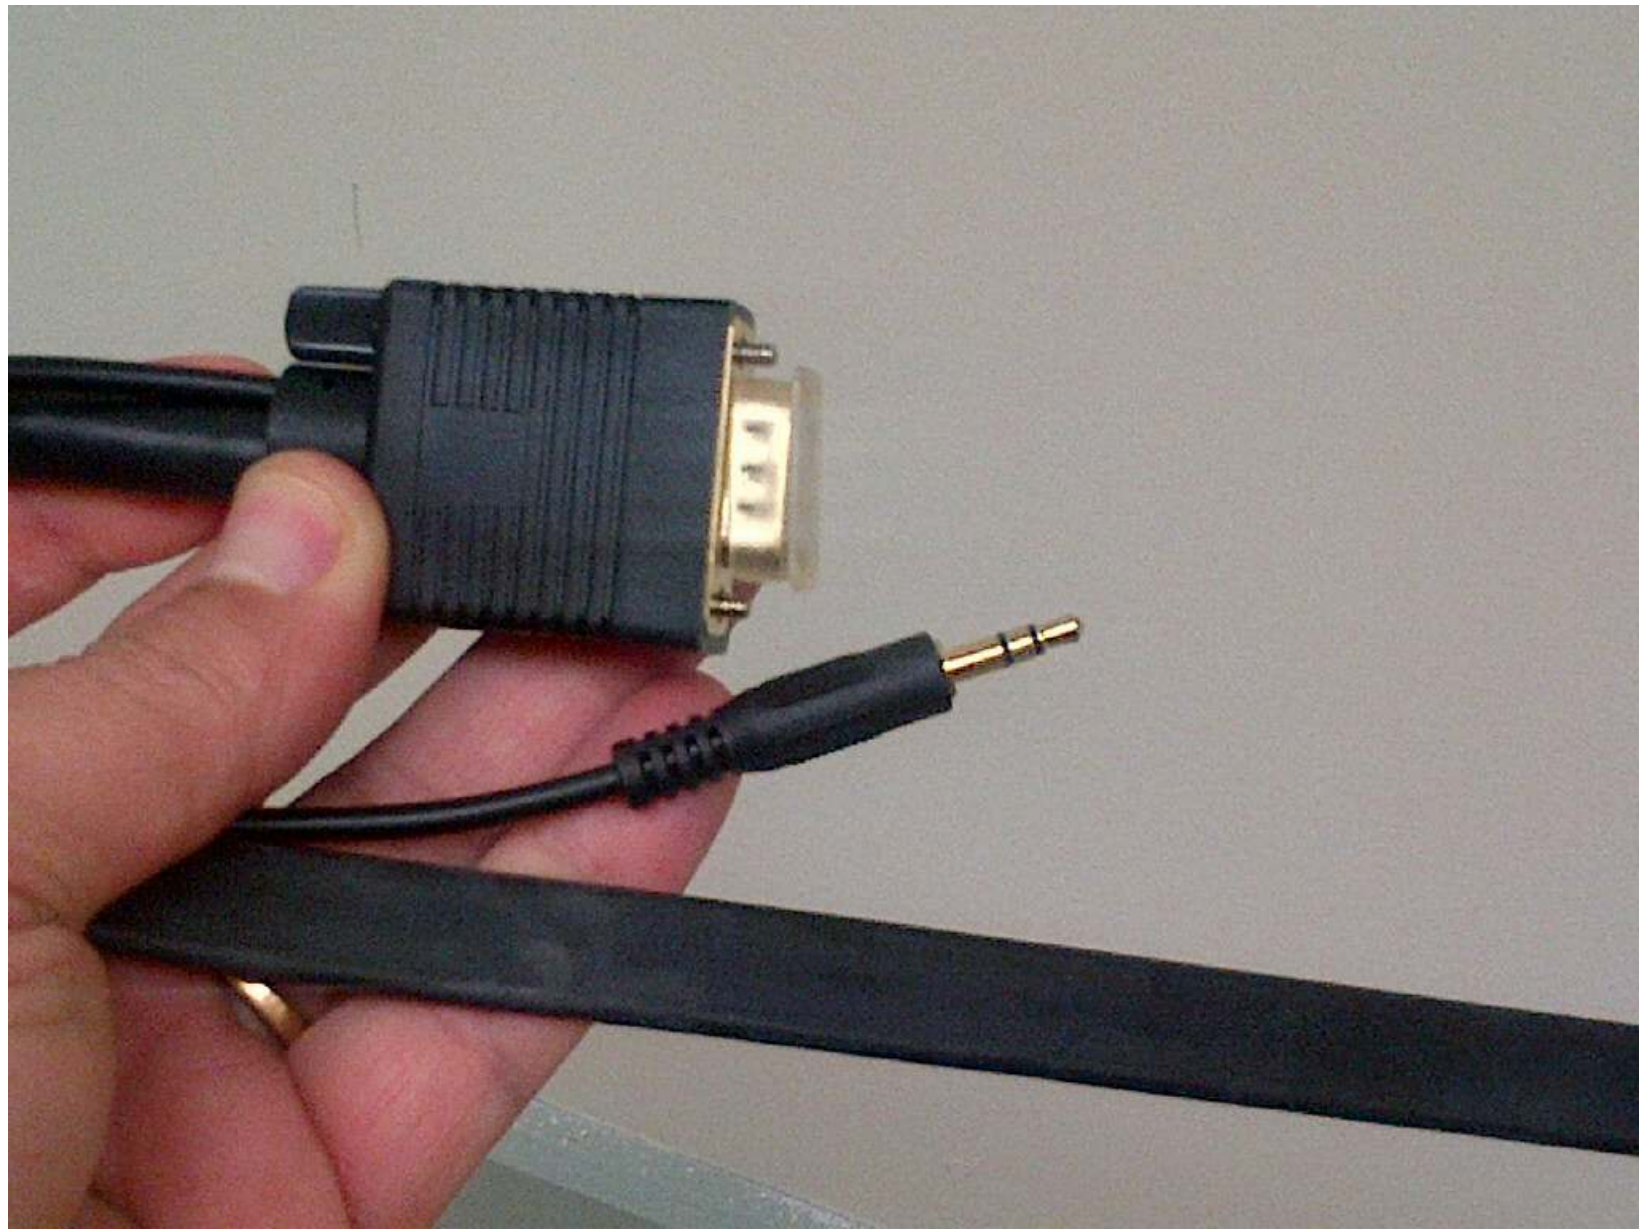

- Bring your laptop and use either HDMI or PC input
- If you don't have laptop, ask the secretary for a loner laptop.
- If you are using tablet (Android or iPad), please brining you HDMI to micro HDMI adaptor.

# Lighting your classroom

- Classrooms & tutoring are fitted with timer-switches as shown in next slide.
- The switch has the following settings: On/Off, 2 Min, 5 Min, 10 Min, 15 Min, 30 Min & 60 Min

# Timer-switch set to Off

# Timer-switch set to 2 Min

# What you need to do

- Depending on the intensity of the daylight and the duration of the class, you can simply press the desired time on the switch.
- The light will flicker one minute before the time ends, and then will beep twice every 15 seconds before the light gets turned off.
- The above reminder is to draw your attention in case you need to extend the time, you may do so simply by pressing the desired time.
- Upon your exit from the classroom, you don't need to go back and turn off the light as it will be done automatically.
